Bathtub & Shower

Congratulations on your bathtub/shower transformation!

A resurfaced bathtub/shower should provide years of service when given the same care and maintenance recommended by new tub manufacturers like Kohler, American Standard, Lasco and others.

- WAIT 24 HOURS BEFORE USING YOUR REFINISHED SURFACE
- USE ONLY NON-ABRASIVE OR LIQUID CLEANERS
 - Formula 409[®], Lysol[®] Tub & Tile Cleaner, Scrubbing Bubbles[®], Dawn[®] dishwashing liquid, Pine-Sol[®] original formula, white vinegar & water (equal parts)
- DO NOT USE ABRASIVE CLEANSERS, HARSH ACIDS OR CLEANERS THAT CONTAIN BLEACH
 - These materials can discolor or damage the surface causing premature wear
- DO NOT LEAVE ANY CLEANERS OR CHEMICALS ON THE SURFACE FOR MORE THAN 5 MINUTES BEFORE THOROUGHLY RINSING
- USE ONLY A NON-ABRASIVE SPONGE OR DAMP CLOTH
 - Abrasive cleaning pads can dull or scratch a refinished surface

- TO CLEAN A SLIP-RESISTANT SURFACE, apply a liquid cleaner and let it sit for 3-5 minutes. Agitate lightly with a nylon brush, rinse thoroughly and dry.

- Use only a suction-cup-free bathmat and remove it after use to let the surface dry.
