Redux™ Surface Repair Systems

PRODUCT TYPE	PRODUCT NAME	DESCRIPTION	KEY DIFFERENTIATORS	HOT TUB/ SPA REPAIRS	BATH REPAIRS
SURFACE PREPARATION	REDUX 110 High-Build Filling Compound	A high-build chip and scratch filler with a firm set; suitable for use on most substrates and most surface repair applications.	A versatile filler for a variety of applications.		✓
	Redux 120 Pore Filling Compound	A low viscosity filler formulated to fill in pinholes and micro-scratches for a smoother fill with less sanding.	Low viscosity, ideal for pinholes and micro-scratches.		✓
	REDUX 130 High-Performance Spa Putty	A high-performance chip and scratch filler with a chemical and water-resistant formula, suitable for use on most substrates.	Resistant to spa chemicals, chlorine and ozone. Resistant to prolonged hot water exposure.	✓	
	REDUX 150 Pourable Foam Structural Repair System	A two-part structural repair system, formulated with closed-cell chemistry for added durability, expands to 10X its original size, delivering structural support to weak areas in under 5 minutes.	Virtually odorless. Resistant to water & mold damage.	✓	✓
	REDUX 210 Universal Bonding Agent	A wipe-on bonding agent that ensures optimal adhesion between the substrate and the repair coatings.	Helps to extend the lifespan of repairs. Ideal for use on virtually all surfaces.	✓	✓
PRIMER AND TOPCOAT SYSTEMS	REDUX 410 2K Primer System	A two-part fast-dry polyamide-cured epoxy primer system specifically formulated as a high-build primer with superior inter-coat adhesion.	Low odor, low VOC Ideal for a variety of substrates.	✓	✓
	REDUX 510 1K Topcoat System	A one-part high-performance ready-to-use formula for high-moisture environments.	High-solids. Airbrush, HVLP or brush application.		✓
	REDUX 610 2K Topcoat System	A two-part high-performance, cross-linked, non-isocyanate coating that's extremely durable, and formulated for high-moisture bath environments.	Low odor, low VOC. No isocyanates. Airbrush, HVLP or brush application.		✓
	REDUX 650 2K Topcoat System with Pro Tints	A two-part high-performance, cross-linked, non-isocyanate coating that is extremely durable, and formulated for high-moisture, warm spa environments. Pairs with Redux 650 Pro Tints for color-matching.	Low odor, low VOC. No isocyanates. Airbrush, HVLP or brush application.	✓	
FINISHING COMPOUNDS	REDUX 710 (Coarse) REDUX 730 (Medium) Buffing Compounds	A high-performance buffing compound removes micro-scratches and helps blend and feather out repair area.	Ideal for use on most substrates.	✓	✓
	REDUX 750 Polishing Compound	A high-performance polishing compound which helps to restore the gloss level of the repair area.	Ideal for use on most substrates.	✓	✓
ADDITIVES	REDUX 810 Flattening Agent	Add to Redux Topcoat System Resins to decrease the gloss level.	Compatible with all Redux Topcoat Systems.	✓	✓
	REDUX 820 Tints	For use with the Redux 510 & 610 System to achieve in-field color-matching.		✓	✓
	REDUX 830 Dispersions	For use with the Redux 510 & 610 Systems, Redux 830 Dispersions are a more concentrated colorant than Redux 820 Tints.		✓	✓
	REDUX 840 Repair Blender	Add to any of the Redux Topcoat Systems to improve feathering and blending of the repair.	Compatible with all Redux Topcoat Systems.	✓	✓
