Repairing damaged surfaces?

Choose a surface repair systems partner that offers
Reliability, Flexibility, and Expertise!

RELIABILITY

RELIABILITY

The manufacturing and global distribution infrastructure required to support growing businesses

- Backward integration into manufacturing
- 300,000 ft³ warehouse storage space
- Warehouses and distribution centers worldwide
- Disciplined fulfillment processes
- The largest network of repair technicians across North America
- Bi-lingual customer service agents (English & Spanish) available M-F from 7:30AM CST—5:00 PM CST
- 24/7 online ordering

A man wearing a black hoodie and glasses is seated at a wooden desk, using a handheld device. In front of him is a large computer monitor displaying a data table with columns and rows. The table contains various numerical values and some green highlights. To the left of the monitor is a keyboard. In the foreground, there is a white bucket with a wooden stirrer, labeled 'CAPS'. To the right of the keyboard, there are several stacks of white trays or containers, some with 'HAWKLABS' and 'HISTORIC' printed on them. The desk is cluttered with various items, including a printer and some papers. The word 'FLEXIBILITY' is overlaid in large, white, bold letters across the center of the image.

FLEXIBILITY

FLEXIBILITY

Custom solutions that solve critical operational challenges:

- Scalable packaging options, from commercial quantities to single-use kits
- Precision custom color-matching
- Private label capabilities
- Direct and drop-ship fulfillment options
- Tiered pricing programs
- Programs for complex customers, including multiple billing or shipping addresses, dealer/franchise programs, and more
